jonasdovy.com · sagabuild.com · linkedin.com/in/jonasdovy

Designer-developer who ships products end to end. I own UI/UX and front-end (Next.js, React, TypeScript) and go full-stack when needed (Supabase/Postgres, OAuth, Claude API), using AI-assisted workflows to deliver what usually takes a full team.
5+ years of experience · 30+ projects

SKILLS

Development: Next.js · React · TypeScript · HTML/CSS · Tailwind · Responsive Web · SEO Backend & Data: Supabase · PostgreSQL · Schema Design · Row-Level Security · REST APIs · OAuth 2.0

AI: Anthropic Claude API · AI-Assisted Development

Design: UI/UX · Brand Identity · Layout · Typography · Figma

Tools: Canva · Figma · Webflow · Git

Languages: Norwegian (native) · Russian (native) · English (fluent) · Lithuanian (conversational)

EXPERIENCE

- 2026 ● Lead Front-End Developer & Co-Founder** April 2026 - Present
[Saga AS](#) · Oslo, Norway
Own all design and front-end across client projects (Next.js, React, TypeScript, Tailwind, Sanity CMS); share back-end with co-founder.
Shipped production builds: a distance-based e-commerce price calculator, a 130+ part filterable product catalogue, and a bilingual site for a 40+ location chain.
Company site scores 97-100 performance and 100 SEO on Lighthouse.
- 2024 ○ Marketing & Media Intern** Jan 2024 - March 2024
Vestre AS · Norway
Produced marketing video, photography, and ad graphics; ran competitor and market research.
- 2023 ○ Teaching Assistant** Aug 2023 - May 2024
Kristiania University College · Oslo, Norway
Supported students with website creation and Google tools.
- 2023 ● Marketing Consultant** June 2023 - Present
[Sedum Norge](#) · Norway (Remote)
Brand direction, messaging, and web and ad strategy for Sedum Norge.
- 2022 ○ Freelance Web and Graphic Design** Dec 2022 - April 2026
Self-Employed
Independent web and design freelancing, became Saga AS in 2026.

PROJECT - Personal Dashboard - Full-Stack Web App (Solo)

Built end to end: Next.js / React front end, Supabase / Postgres back end with a ~30-table relational schema and row-level security. Integrated Google OAuth (Calendar, Tasks, Fit) with server-side token refresh and the Anthropic Claude API for voice and text capture, summaries, and an automated end-of-day digest.
10+ modules (health, tasks, finance, ~900-contact CRM, content pipeline) with full CRUD and direct data ownership in Postgres.

EDUCATION

- 2021 ○ Bachelor in Digital Marketing** August 2021 - May 2024
Kristiania University College, Oslo Norway
Exchange Semester - Digital Marketing January 2023 - June 2023
Copenhagen Business Academy, Copenhagen
- 2019 ○ Higher Professional Degree - Graphic design 2** August 2019 - June 2021
